WORK ALERTER

The Work Alserter is a unique, self-contained, user programmable single circuit program timer. The user can easily establish or alter the signal schedule at any time via an internal keypad. The unit is available with or without built-in horn. A horn or bell can be located in an area away from the timer.

Features:

- Large front panel; red digital time readout
- Timer can carry up to 1440 sounding entries, as close as one minute intervals, and can allow for a weekend cutout
- Fixed 5-second signal duration
- Sounding schedule can be changed at any time
- Easy-to-use programming keypad inside metal case under lock and key to prevent unauthorized tampering
- Battery backup of program memory during power failure lasting up to three hours
- Battery is automatically charged

Model	Description	Price
DWA-S	Digital Work Alserter	\$695.00
DWA-SB	Digital Work Alserter w/ Horn	\$750.00
950	Extra Horn	\$129.00
